

The clear choice for transport refrigeration.

An offer for truck workshops with transport refrigeration.

Refrigerant program

Refrigerants for the automotive industry, such as R134a, R404A, R452A and R744 suitable for transportation cooling. We are continuously introducing new refrigerants.

A simple and safe way of living with gas.

- ✓ **Welding, cutting and heating:** Welding and cutting gases with different properties and for many uses. A wide range of burners as needed, both acetylene and LPG.
- ✓ **Pressure test:** Our product range includes equipment to pressure test cooling systems. Nitrogen of different grades available.
- ✓ **Flushing and leak detection of cooling systems:** Nitrogen flushing before filling the AC system. For leak detection there is helium and FORMIER® 5.
- ✓ **Basic range always in stock:** Acetylene, LPG, refrigerants, ODOROX® odorized oxygen, oxygen, nitrogen, FORMIER® 5 and helium.
- ✓ **GENIE® gas cylinder:** Ergonomic mobile light-weight bottle with built-in display that shows the contents. 300 bar provides up to 45 % more gas.
- ✓ **Equipment:** A wide range of regulators, welding hoses, flashback arrestors and cylinder trolleys.
 - UNICYL® purchased cylinder suitable for smaller jobs.
 - NEMO PLUS® gas cylinder with built-in regulator.
 - X11 toolboxes.

Services.

ACCURA® gas management

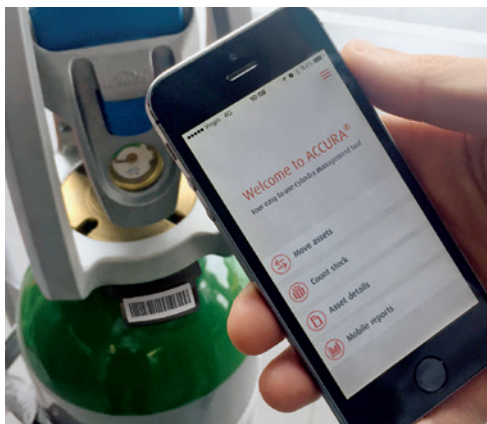

Our internet-based service allows you to easily track and monitor your gas consumption. Provides better visibility and control, more efficient gas consumption, better safety and less administrative work.

Central gas system and maintenance services

AGA will help you design, install and regularly service your gas supply system. With our knowledge and experience of gases, regulations and laws we will help you keep track on official demands regarding control and documentation.

Streamlined work with AGA.

- ✓ **Safety and functionality in focus:** Is continuously developing new products and services for more efficient work.
- ✓ **Flexible gas solutions:** We offer a comprehensive range of cylinder sizes. You can rent or purchase cylinders, with or without integrated valves.
- ✓ **Availability:** More than 200 agents from Kiruna in the north to Ystad in the south.
- ✓ **Opening hours:** Most AGA agents are open from 7 a.m. until late afternoon with good parking facilities.
- ✓ **Delivery:** You have three options to choose from; pick-up at an AGA agent, delivery from an AGA agent or direct delivery from AGA.
- ✓ **AGA training:** Modular training courses adapted to your requirements. Training that aims to minimise risk and boost efficiency.

Training courses.

AGA offers a wide range of training courses in safety handling, storage and use of gases. The aim is to minimize risks, increase efficiency and follow laws and regulations.
